Relax, Sunbather Safeguard has it covered.

Safeguard is an attractive, easy to use pool cover for 'all seasons'.

**Finally a pool cover that can be easily used ALL year round.  
The Sunbather Safeguard Cover does everything you need from a pool cover, plus more!**

**STRONG AND SIMPLE, QUICK AND EASY TO USE:**

The key to using a pool cover regularly is its ease of operation. Simply roll the Safeguard cover over the pool and lock it in place when the pool is not in use. Made of strong lightweight materials it can be easily folded or rolled off your pool. And with no roller it's simple to store.

**CONTROLS SUMMER EVAPORATION:**

When in place it will dramatically reduce evaporation and water loss. And less evaporation, means less chemical loss saving you time and money.

**HELPS INSULATE THE POOL:**

The fine mesh of the Safeguard Cover will lock some of the pool's warmth overnight making that early morning swim that much more enjoyable. At the same time, that fine mesh will block out sunlight during the day preventing algal growth. That, in turn will reduce chemical usage and maybe even filtering hours. Saving you even more money.

**ACTS AS A SAFETY NET OVER YOUR POOL:**

While not a full safety cover, the Safeguard will deter small children, pets, and even those pesky ducks. It 'locks down' your pool but, being porous, water can't pond on it's surface after rain. It lets rainwater fall straight through topping up the pool.

**ELIMINATES WINTER MAINTENANCE:**

Pools are great fun in summer, but an uncovered pool in winter can be a chore. The Safeguard keeps out leaves, dirt and debris keeping the pool ready for swimming and fun next summer.

**MADE TO FIT ALL POOL SHAPES AND SIZES:**

The Safeguard cover can be custom made to suit any shape or size pool. And it comes in 3 colours, Green, Blue and Black.

**IT EVEN PAYS FOR ITSELF:**

With all the above benefits, a Safeguard Pool Cover will pay for itself in under 2 years and save you hours of pool maintenance.
